

ACCEPTABLE USE POLICIES (AUP)

CCEU-4000-06

All clients of CCBill EU, LTD agree to abide by the following policies. CCBill EU reserves the right to change and update these policies as it sees necessary.

Introduction

The primary purpose of CCBill EU, LTD is to facilitate and manage access to clients' venues for consumers. It is CCBill EU's intention to accept payment from customers for access to clients' sites or services with minimal or no interference from us. However, many of the individual credit card associations have specific guidelines for use. In addition, many Service Providers also have specific guidelines pertaining to general use of the Internet. As the Internet expands, it is increasingly common for an Internet Service Provider, such as CCBill EU, to be blocked from use of another organization's systems due to violations of that system's AUP. Because CCBill EU runs multi-user systems, client actions can have a severe impact on other clients' ability to use the system(s). This is unfair to all CCBill EU users. To this end, CCBill EU has developed these Acceptable Use Policies. They are intended to inform the client of what CCBill EU considers to be acceptable conduct in relation to the Internet, and of what actions we may take, with or without notice, in the event that CCBill EU becomes aware of inappropriate use of its service. This AUP will be used to help CCBill EU's system administrators deal with complaints from users of CCBill EU or other Internet-connected systems, and to determine when action should be taken. It is expected that the client will follow the policies set forth herein. These policies are drawn from applicable law and generally accepted standards of Internet conduct, and are intended to ensure protection of CCBill EU's technical resources, ability to continue to provide high quality service to the client, and protect CCBill EU's reputation as a service provider.

ACCESS TO CCBILL EU'S SERVICE IS PROVIDED SUBJECT TO THE FOLLOWING:

Security

The client is responsible for all use of their account(s) and confidentiality of password(s), including choosing safe passwords and ensuring file protections are set correctly. CCBill EU will suspend or change access to your CCBill EU client account(s) immediately upon notification by you that your password has been lost, stolen or otherwise compromised. CCBill EU is not liable for any usage and or charges prior to CCBill EU making the necessary account alteration. Electronic mail on this system is as private as CCBill EU can make it. The client is reminded that no computer network can ever be considered completely safe from intrusion. E-mail may pass through many computer systems, and should not be considered a secure means of communication unless encrypted – and even encrypted information is only as secure as the encryption method utilized.

ACCEPTABLE USE POLICIES (AUP)

Non-Transferability of Account

The right to use CCBill EU's Internet service is not transferable. Use of CCBill EU's accounts is expressly limited to the individual or business whose name appears on the contract.

Unacceptable Conduct

The following types of conduct are grounds for immediate suspension of service pending investigation by CCBill EU and may result in termination of any and all accounts held by the individual, corporation, or website associated with these violations.

You will also be held responsible for the actions of your business relationships (Referrers, Associates, etc.) that impact CCBill EU. Your cooperation is necessary to insure that those involved in these relationships comply with CCBill EU's AUP and those of CCBill EU's providers. If they violate any of the following policies, CCBill EU expects you to make certain that they immediately cease the non-compliant action or that you discontinue your association with them. Continuing violations by your business relationships may result in CCBill EU at its discretion having to terminate payment to your business relationships or CCBill EU's agreement with you.
